NOTE FOR: Admiral Inman

VIA : Robert Gates

We asked D/NFAC and DDO for a quick reaction to the attached with the following results:

D/NFAC: The President should read the NIE "Dealing with Mexico in the 1980s." This can be conveyed to him by the NSC sometime prior to 26 April.

NFAC is prepared to comment on the probable Mexican reaction to various agenda items suggested by other Cabinet members.

DDO : Has no firm suggestions at the moment but points out... President might raise the Russians' diplomatic and espionage presence.
